

Conservation Grazing in Practice

This course provides a basic introduction to extensive/conservation grazing and the use of livestock to achieve environmental objectives. The course covers grazing and grazing systems, animal health, welfare and behaviour, the key legislation, the role and responsibilities of a keeper, health & safety and risk assessments and how to safely and effectively carry out livestock handling techniques.

Conservation Grazing in Practice (2 day course): £POA (includes lunch unless otherwise stated but does not include accommodation)

GAP training courses are accredited by Lantra Awards and delegates will receive a certificate by post after successful completion of the course. The certification is included in the course cost. All the trainers GAP uses are also accredited by Lantra.

To enquire about forthcoming courses please email gap@rbst.org.uk.

Please note that the course involves both indoor and outdoor learning, some physical activity such as stock handling and walking and close proximity to livestock.

If you have any particular requirements such as dietary, language or special needs and have any general queries or are unsure of the suitability of the course please gap@rbst.org.uk.
